

Professor Dr. Ahmed Talaat Khairy

Dr. Khairy is a Senior Consultant and the Nuclear Medicine core faculty at the Department of Clinical Imaging, of Hamad Medical Corporation (HMC). He is double qualified, obtained his MSc and MD in Radiology from Ain Shams University (Cairo) in 1979 and 1985 respectively, stepped up through different academic posts at that University until he got his professorship in 1997. He also obtained MSc and PhD in Nuclear medicine, from the University of London (UK), in 1984 and 1993 respectively. He devoted his practice to Nuclear Medicine since the early Eighties.

Dr. Khairy published several articles, supervised and acted as examiner of many MSc and MD thesis and delivered many presentations at international and local meetings. He joined HMC in October 2009, headed the curriculum review committee and the panel that revise and evaluate internal audits submitted by the residents. He is a member of other committees including the clinical competency committee, program evaluation committee, policy review committee and the residents' education committee. As the Nuclear Medicine Core Faculty, he is responsible for and actively participates in Residents' education and training. In 2018 he was elected as the "Best Teacher" and awarded for that.
